

Traffic and Highway Data Charges From 1st April 2019

1 AUTOMATIC TRAFFIC COUNTER DATA

There is a £145 + VAT minimum charge per site. Where any further reports are required, there will be an additional cost of £45 + VAT per report. The type of data required will influence the type of reports that are supplied.

A Yearly Growth Rate Report showing the monthly averages and Annual Average Daily Traffic (AADT) for up to three years at one site will cost £145 + VAT. For each additional year required, there will be an additional cost of £45.

A Multi-Day Volume report showing hourly flows for up to one month will cost £145 + VAT. For each additional month required, there will be an additional cost of £45 + VAT.

2 MANUAL CLASSIFIED DATA

There is a £145 + VAT minimum charge per site. This charge is applied to sites with a maximum of 3 arms. If the manual count is a roundabout or junction that has 4+ arms the charge will be £290 + VAT.

Most manual counts are undertaken for 12 hours from 07:00 – 19:00 on a single representative day with data collected in 15 minute intervals.

For more complex sites, where a cluster of data is available, we will provide a separate quote for supply of this data.

3 SPEED RADAR DATA

Speed radars are capable of recording both vehicle speeds and flows. A report either showing vehicle speeds or vehicle flows over a seven day period will cost £145 + VAT, and if both reports are required the total cost will be £190 + VAT.

4 CONTACT

Please send any data requests to the data team via email datateam@devon.gov.uk or call 0845 155 1004.
