Overview

44.0% of social care users surveyed in Devon in 2016-17 reported being satisfied with their social situation. This was below the England (45.4%) rate and significantly below the South West (46.1%) and local authority comparator group (47.2%) rates. Within Devon whilst there is some variation in responses at district level, smaller sample sizes mean the differences are not statistically significant.

Equalities

Female social care users in Devon reported being more satisfied with their social situation than male social care users. Social care users with learning disabilities reported being the most satisfied with their level of social contact compared with other client groups.
