Overview
This measure of 'excess weight' covers children classified as overweight or very overweight. In reception year (aged four or five) 22.8% of pupils in Devon were recorded in the excess weight category, compared to 23.1% for the South West, 22.8% for the local authority comparator group, and 22.6% for England. Within Devon no areas were significantly different to the national rate.

Equalities
Local results by deprivation and other criteria have not yet been released. Previous results for Devon that whilst obesity rates were significantly higher in more deprived areas, the difference for the combined excess weight were not statistically significant. Levels of excess weight were higher in boys than girls. No significant differences were observed by ethnic group in Devon.
