Overview
There were 194 conceptions in Devon between September 2015 and June 2016 for females aged under 18, with around half leading to a birth. The latest rate (16.3 per 1,000 females) was broadly in line with South West (16.1), local authority comparator group (17.5) and England (19.9) rates. Rates have fallen significantly over recent years.

Equalities
There is a very clear link between area deprivation and conception rates, with higher rates in the most deprived areas both locally and nationally, although rates have fallen more rapidly in the most deprived wards in recent years. Most teenage conceptions occur at the age of 17, and there are only a small proportion under the age of 16 (around 30 per annum), with less than 10 under 16 births per year.
